Cadillac Jack to Showcase New Server-Based Downloadable Games at Bingo World 2006

New Titles, Evolution™ Gaming System and Downloadable Game Technology on Agenda for Bingo World

DULUTH, GA, March 3, 2006 – At this year’s Bingo World Conference and Tradeshow in Las Vegas, Nevada, Cadillac Jack will showcase its Evolution™ gaming system and new Class II and Class III compact games. The company’s booth will feature more than 30 games from its vast game library – all available as downloadable titles.

Cadillac Jack plans to demonstrate the power of its server-based, downloadable game technology that allows operators to quickly and easily change game titles – providing unprecedented flexibility and efficiency in the slot floor mix. “Our Evolution gaming system, coupled with our first-to-market downloadable game capabilities, provides reliability, efficiency and maximum availability for our clients,” commented Gregory Gronau, president of Cadillac Jack. “Our showcase of new technology at this year’s Bingo World underscores Cadillac Jack’s commitment to innovation and quality.”

The Evolution gaming system is a multi-jurisdictional platform which can simultaneously support games for charitable applications, Indian Gaming Class II, Class III, and compact applications, and various other jurisdictions. The Evolution system is an integral part of a secure wide-area network hosted by the company’s Gaming Support Operations Center (GSOC), which provides centralized reporting and accounting, data warehousing, archiving and centralized configuration management.

Cadillac Jack will demonstrate more than 30 video and mechanical reel gaming devices including new titles such as *Rock Paper Scissors™*, *Slap Shot*, *Football Star*, and *Fast and Beautiful*. All games in Cadillac Jack’s game library are available as downloadable titles from the server.
