Cadillac Jack Receives Oklahoma Class III Compact Certification

DULUTH, GA, January 6, 2006 - Cadillac Jack announced today that it has obtained Oklahoma Class III Compact certification for the company, its games and its Evolution Gaming system. With a legacy of providing innovative games to the Class II, charitable, and international gaming markets, this new Class III certification propels Cadillac Jack to the forefront of gaming providers for this marketplace.

Cadillac Jack and most of the company's games are now certified under standards set by the Choctaw Nation Gaming Commission, Chickasaw Nation Gaming Commission, Cherokee Nation Gaming Commission and Oklahoma Horse Racing Commission. Certification under these standards gives Cadillac Jack entrée into all Compact markets in Oklahoma. Compliance testing was performed by BMM Testlabs in Las Vegas.

Jack Saltiel, Chief Technology Officer for Cadillac Jack, believes this certification demonstrates the company's commitment to developing and delivering games to the highest possible standard, "Class III Compact certification in Oklahoma puts Cadillac Jack in a better position to serve our customers in the state, delivering quality games with the integrity and security required for the casino floor. This is our first Class III certification, building on the recent certification received last year by the Office of Charitable Gaming in Louisiana, and demonstrates the company's progression into Class III and regulated markets nationally."

Cadillac Jack received certification for all of the company's three-reel Triple Threat and Tsunami games, and many of company's five-reel games, as well as the company's server and back-office system, the Evolution Gaming System. Cadillac Jack also has other new games currently under review by BMM which will further expand these offerings in the Oklahoma Class III marketplace.
