

## Cadillac Jack to Feature Cadillac Cash Wide Area Progressive at the Western Indian Gaming Conference (WIGC)

DULUTH, GA and Temecula, CA, January 17, 2007 - Cadillac Jack, a leading provider of server-based games and systems to the global gaming market, announced today that it will feature Cadillac Cash, the company's new Wide Area Progressive, at the Western Indian Gaming Conference on January 17-18 in Temecula, CA. The company will also demonstrate a variety of new server-based multi-denomination video and mechanical reel games.

"Cadillac Cash was showcased at G2E and was enthusiastically received by the industry," explained Greg Gronau, President of Cadillac Jack. "Since we launched Cadillac Cash in Washington in October 2006 it has outperformed our expectations. Players have been especially drawn to some of the product's unique features such as the instant cash payouts, multiple game themes linked to a common jackpot, and its expected average jackpot of \$250,000. We are confident that the product will achieve similar successes in other markets."

Cadillac Jack will also feature a variety of new multi-denomination video and mechanical reel games available for the Class II and Class III Compact markets. Based upon Cadillac Jack's leading server-based, downloadable game technology, the games are able to quickly and easily transform from a Class II game to a Class III Compact game format right on the casino floor. New video reel game titles include Genie's Jackpot, Fruit Party, Surf Rider, and Your Lucky Day. Mechanical reel titles include Crazy Vegas and Cave Age Cash.

"We are excited to introduce our latest technology and games to the attendees at WIGC," continued Mr. Gronau. "We continue to expand our business in both Class II and Class III markets through our innovative server based gaming technology and our new Compact games. The Western Indian Gaming Conference is the perfect arena to showcase our new products to our customers and prospects."

Be the first to preview Cadillac Jack's new games and technologies at booth #1005, WIGC.
